## NuLasers Ltd. offers miniature 488 nm laser diode module

**NuLasers Ltd. fiber coupled laser diode modules with a head size of just 30 x 31 x 33 mm.**

Laser diodes manufactured by OSRAM/NICHIA at 488 nm are utilized in a miniature laser diode module CLD-488-XX with fiber coupling of the laser diode. High pointing stability and low output power fluctuations are achieved. Customized models can fit wide user requirements.

Applications:

Bioinstrumentation
